

## **Jeff Davis County Covid-19 Vaccination Walk-in Clinic**

On Monday, February 8, 400 doses of Covid-19 vaccine will be administered in Jeff Davis County by a team from Midland Memorial Hospital. Vaccination will take place at the Jeff Davis County Fire Station and will be conducted similarly to our periodic testing. Everyone will enter the fire station parking lot from Woodward Avenue, then park and walk into the fire station to receive vaccine. Volunteers will be present to assist.

Vaccination is open to anyone in the Phase 1A category (health care workers and first responders) or the Phase 1B category (people 65 years of age or older and people 16 years of age and older with at least one chronic medical condition that puts them at increased risk for severe illness from the virus that causes COVID-19). You must qualify as 1A or 1B to receive vaccine at this time.

Vaccination will begin at 10:00 am and end at 4:00 pm. Due to the short notice of vaccine availability, there is not enough time to make appointments in advance. Therefore vaccination will be on a first come, first served basis. Even if you have preregistered on line, you will not be contacted; just show up at the fire station on Monday, February 8.

Registration forms are available on line on the Jeff Davis County website, and can be picked up in advance at the County Judge's Office, or the county library.

Vaccination will be done using the Pfizer-BioNTech vaccine. This is a two dose vaccine. Persons receiving their first dose on Monday, February 8, will receive their second dose on Monday, March 1, at the Jeff Davis County Fire Station. Please note that this is for first doses only. If you need a second dose, please contact the provider who gave you the first dose.

If you need additional information, please call Judge Evans' office at 432-426-3968.
